Topic 1: Improving the way the needs of disabled people are assessed, and how support is allocated

This covers proposed changes to the way peoples' needs are assessed and how decisions are made about what supports they receive.

Make sure there is a consistent approach to needs assessment

Question 1: What changes can you suggest that would ensure the assessment tool and process is fair, consistent, and transparent? Helping you access support that isn't available through DSS

We propose that NASCs identify supports that are available through other agencies and provide guidance on how these can be accessed.

This will help ensure that DSS is only used for the supports that are not provided elsewhere.

Question 8: What information or support might NASCs provide that will help you access the services, beyond DSS, that you might be eligible for?

Topic 2: Accessing flexible funding, and how it can be used

There are two options for changing how flexible funding can be used:

Option 1 – Link flexible funding to the person’s plan, with oversight of how it is used

Option 2 – Adjust current lists of what can and can’t be funded using flexible funding.

Question 9: Do you prefer Option 1 (link flexible funding to the person’s plan, with oversight of how it is used) or Option 2 (adjust current lists of what can and can’t be funded using flexible funding)? Why?

Question 10: Do you have any suggestions on how flexible funding can be used to allow disabled people and carers as much choice, control and flexibility as possible, while still providing transparency and assurance the funding is being used effectively, and is supporting outcomes?
